Instruction Date

28th March 2022

Instruction and Purpose of Valuation

Our valuation report (the "Valuation Report") of the properties within the Portfolio is for the following purpose (the "Purpose"): the announcement of the all share merger of Capco and Shaftesbury (the "Proposed Transaction") pursuant to Rule 2.7 of the City Code on Takeovers and Mergers (the "Code") (the "Rule 2.7 Announcement").

Basis of Valuation

We confirm that our valuations and report has been prepared in accordance with the current RICS Valuation – Global Standards, incorporating the International Valuation Standards, and the RICS Valuation – Global Standards 2017 – UK national supplement published by the Royal Institution of Chartered Surveyors (the "RICS Red Book" as applicable) on the basis of the Market Value.

We further confirm our valuations and report are compliant with the Code, including, without limitation, Rule 29.

The report is subject to, and should be read in conjunction with, the General Principles Adopted in the Preparation of Valuations and Reports.

No allowance has been made for any expenses of realisation, or for taxation (including VAT) which might arise in the event of a disposal and the property has been considered free and clear of all mortgages or other charges which may be secured thereon.

We have assumed that in the event of a sale of the properties, they would be marketed in an orderly manner and would not all be placed on the market at the same time.

Inspection

The properties have been inspected during 2021.

Conflicts of Interest

We confirm that we have previously valued, and are currently instructed to value, the properties on behalf of the Client, on a bi-annual basis for financial reporting purposes.

We do not consider that any of the above provides a conflict of interest preventing us from preparing the valuations.

We confirm that: (i) we are not aware of any reason why we would not satisfy the requirements of Rule 29.3(a) of the Code; and (ii) during the term of the engagement, we shall not do anything that could reasonably be expected to cause us not to satisfy the requirements of Rule 29.3(a) of the Code.

Disclosures

In our firm's preceding financial year the proportion of total fees payable by the Client commissioning this valuation was less than 5 per cent. of the firm's total fee income.

It is not anticipated there will be a material increase in the proportion of fees payable to the firm by the client commissioning this Valuation Report since the end of the last financial year or in the next financial year.

Personnel

The valuation has been prepared by Chris Strathon FRICS, Director and Nick Carter, Director, MRICS and Liam Hall, Surveyor MRICS.

Status

In preparing this valuation, we have acted as External Valuers as defined in the RICS Red Book, subject to any disclosures made to you.

Assumptions

As detailed in our General Principles, we have made a number of assumptions, including:

We have assumed that a good and marketable title is held and that there are no encumbrances, restrictions, easements or other outgoings of an onerous nature, which would have a material effect on the value of the interests under consideration.

We have assumed that all leases are drawn on standard terms with no unusual or onerous clauses that would impact on value.

We have not undertaken planning enquiries and have assumed that the properties comply with all relevant regulations and legislation.

We have assumed that the properties are structurally sound and that there are no structural, latent or other material defects.

We have assumed that the properties are not affected by environmental contamination.

We have assumed that mains water, gas and electricity are connected to the properties, and that they drain into the public sewer.

We have made no "Special Assumptions".

Sources of Information

We have not carried out any building surveys or environmental risk assessments. We have not measured the properties and have relied upon areas provided. We have not been supplied with Certificates of Title and assumed that the correct legal title is held.

We have relied on all the scheme drawings, floor areas, build costs and infrastructure costs provided by the Client in relation to the development site at Lillie Square.

We have been provided with up to date tenancy schedules and have relied on these for the purpose of the valuations.

Valuation Approach

For the development site we have undertaken residual development appraisals where we have assessed an estimated gross development value based on what can be built on the site in terms of density and size less estimated construction costs, infrastructure costs, contingency, professional fees, section 106 costs, planning fees, finance and profit on cost for this type of development to arrive at a residual land value. We have also made deductions for other relevant costs, such as overage payments and planning risk where appropriate.

For the commercial investment properties we have applied the investment method whereby the income is capitalised at an appropriate investment yield based on comparable transactions in the market place.

For the residential properties, we have used both the investment method if the flats or houses are let and the comparative method.
