CONDENSED VALUATION REPORT

Introduction

Report Date 6 June 2022

Valuation Date 3rd March 2022

Addressees The Directors (as set out below)
Capita & Counties Properties PLC
Rega House
4 James Street
London WC2E 8BU
(hereinafter referred to as the "Company")

and

The Directors
Shaftesbury PLC
22 Ganton Street
Carnaby
London W1F 7FD
(hereinafter referred to as "Shaftesbury")

N.M. Rothschild & Sons Limited
New Court
St. Andrew's Lane
London EC4N 8AL
(in their capacity as Sponsor to the Company)
(hereinafter referred to as "Rothschild")

Evercore Partners International LLP
5 Stanhope Gate
London W1K 1LN
(in their capacity as Rule 3 Advisor to Shaftesbury)
(hereinafter referred to as "Evercore")

(together, the "Addressees")

The Properties	The properties held by the Company as stated in the Schedule of Assets below (the "Properties").
Instruction	To value the unencumbered freehold, heritable and leasehold interests (as applicable) in the Properties on the basis of Market Value as at the Valuation Date in accordance with the terms of engagement entered into between CBRE and the Addressees dated 4 June 2022.
Status of Valuer	You have instructed us to act as an External Valuer as defined in the current version of the RICS Valuation Global Standards. Please note that the Valuation may be investigated by the RICS for the purposes of the administration of the Institution's conduct and disciplinary regulations in order to ensure compliance with the Valuation Standards.
Purpose and Basis of Valuation	The Valuation has been prepared for a Regulated Purpose as defined in the RICS Valuation Global Standards and the UK national supplement current as at the Valuation Date (the "Red Book"). We understand that our valuation report and the Appendices to it (together the "Valuation Report") are required for inclusion in a Rule 2.7 announcement to be published by the

Company in connection with the acquisition share merger of Capco and Shaftesbury in accordance with the City Code on Takeovers and Mergers (the "Code") and the JSE Listing Requirements and Takeover Regulations (the "Transact on") (the "Announcement").

The effective date of valuation is 31st March 2022.

In accordance with the Red Book we have made certain disclosures in connection with this valuation in strict accordance with the Addressed.

Market Value

£1,769,130,000 (One Billion, Seven Hundred and Sixty-Nine Million, One Hundred and Thirty Thousand Pounds) exclusive of purchaser's costs VAT, as shown in Appendix A below.

As set out in Appendix B to this Valuation Report, there are four properties in the portfolio which, individually, have a value of more than 5% of the aggregate of the individual market values. Two of these properties are considered commercially sensitive and the individual values have therefore not been included.

We are required to show the split of values between freehold and leasehold property. As the properties are held for investment.

Type	Number of Properties	Freehold £	* Long Leasehold £	Total £
Value of Freehold Properties held for investment	58	997,220,000	0	997,220,000
Value of Long Leasehold Properties held for investment	2	0	77,910,000	77,910,000
Portfolio Total	70	997,220,000	77,910,000	1,769,130,000

*In excess to 50 years' unexpired term

There are no negative values to report.

Our opinion of Market Value is based upon the Scope of Work and Valuation Assumptions attached and has been primarily derived using comparable recent market transactions on a monthly basis.

Portfolios and Aggregation

We have valued the Properties individually and no account has been taken of any discount or premium that may be negotiated in the market for all or part of the portfolio was to be marketed simultaneously, either in lots or as a whole.

Report Format

Appendix A of this Valuation Report provides the Property Details and Market Value of the Portfolio listed by location. Appendix B provides relevant details of those properties which have an individual Market Value in excess of 5% of the total aggregate Market Value of the Portfolio. Appendix C provides a table of information provided to CBRE by the Company.

Compliance with Valuation Standards and the Code

The Valuation and the Valuation Report have been prepared in accordance with the latest version of the RICS Valuation Global Standards (incorporating the International Valuation Standards) and the UK national supplement (the "Red Book") current as at the Valuation Date.

The valuations are compliant with the International Valuation Standards and Rule 29 of the Code.

The Financial Conduct Authority published technical note 'Primary Market TN 69' to replace and incorporate the ESMA update (ESMA/2018/8) of the Committee of European Securities Regulators' (CESR) recommendations for the consistent implementation of the European Commission regulation (EC) No. 809/2004 into UK law ("TN 69") and, although this does not form part of the UK's EU Retained Law, the Financial Conduct Authority expects Issuers to apply the provisions to the extent relevant. Accordingly, this valuation report is

	a so be compliant with paragraph 53 of TN 6 9. (with the exception of individual valuation dates). The Properties have been valued by a valuer who is qualified for the purpose of the Valuation in accordance with the Red Book. We confirm that we have sufficient local and national knowledge of the particular property market involved and have the skills and understanding to undertake the Valuation competently. Where the knowledge and skills requirements of the Red Book have been met in aggregate by more than one valuer within CBRE, we confirm that a list of those valuers has been retained within the working papers, together with confirmation that each named valuer complies with the requirements of the Red Book. This Valuation is a professional opinion and is expressly not intended to serve as a warranty, assurance or guarantee of any particular value of the subject Properties. Other valuers may reach different conclusions as to the value of the subject Properties. This Valuation is for the sole purpose of providing the intended user with the valuer's independent professional opinion of the value of the subject Properties as at the Valuation Date.
Sustainability Considerations	Wherever appropriate, sustainability and environmental matters are an integral part of the valuation approach. 'Sustainability' is taken to mean the consideration of such matters as environment and climate change, health and wellbeing and corporate responsibility that can or do impact on the valuation of an asset. In a valuation context, sustainability encompasses a wide range of physical, social, environmental, and economic factors that can affect value. The range of issues includes key environmental risks, such as flooding, energy efficiency and climate, as well as matters of design, configuration, accessibility, ergonomics, management, and financial considerations and current and historic land use. Sustainability has an impact on the value of an asset, even if not explicitly recognised. Valuers reflect markets, they do not lead them. Where we recognise the value impacts of sustainability, we are reflecting our understanding of how market participants include sustainability requirements in their bids and the impact on market valuations.
Climate Risk Legislation	The UK Government is currently producing legislation which enforces the transition to net zero by 2050, and the stated 78% reduction of greenhouse gases by 2035 (based on a 1990 base line). We understand this to include an update to the Minimum Energy Efficiency Standards, stated to increase the minimum requirements from an E (since 2018) to a B in 2030. The government also intends to introduce an operational rating. It is not yet clear how this will be legislated, but fossil fuels used in building, such as natural gas for heating, are incompatible with the UK's commitment to be Net Zero Carbon by 2050. This upcoming legislation could have a potential impact to future asset value. We also note that the UK's introduction of mandatory climate related disclosures (reporting climate risks and opportunities consistent with recommendations by the "Task Force for Climate Related Financial Disclosures" (TCFD)), including the assessment of so-called physical and transition climate risks, will potentially have an impact on how the market views such risks and incorporates them into the sale of letting of assets. The European Union's "Sustainable Finance Disclosure Regulations" (SFDR) may impact on UK asset values due to the requirements in reporting to European investors.
Assumptions	The Property Details on which each Valuation is based are as set out in this report. We have made various assumptions as to tenure, letting, taxation, town planning, and the condition and repair of buildings and sites including ground and groundwater contamination as set out below. If any of the information or assumptions on which the Valuation is based are subsequently found to be incorrect, the Valuation figures may also be incorrect and should be reconsidered.
Variations and/or	None.

Departures from Standard Assumptions	TN 619.1 Paragraph 53 TN 619. Paragraph 53 requires us to comment on any differences between the valuation figure in this Valuation Report and the valuation figure included in the Company's latest published annual accounts, which were as at 31 December 2021. Differences between the published valuation figure as at 31 December 2022 and the present valuation are attributable to a number of factors, including but not limited to: ■ There have been no acquisitions or disposals in the period. ■ Tenancy changes (e.g. new lettings, lease renewals, lease extensions), other rental income changes (e.g. rent reviews, expiry of rent free periods) and occupancy levels, in particular five new leases/renewals within the Market Building, significant activity within the food and beverage sector and positive office lettings. ■ Capital expenditure and improvements (e.g. refurbishments), in particular the former Burberry unit on King Street and the office refurbishment at 56 Henrietta Street. ■ No planning permissions of note have been granted in the period.
Independence	The total fees, including the fee for this assignment, earned by CBRE Ltd (or other companies forming part of the same group of companies within the UK) from the Company (or other companies forming part of the same group of companies) is less than 5.0% of the total UK revenues. It is not anticipated that this situation will vary in the financial year to 31 December 2022. We confirm that we do not have any material interest in the Company or the Property.
Previous Involvement and Conflicts of Interest	We confirm that we have previously valued all the properties on behalf of the Company for financial reporting purposes on a bi-annual basis since the acquisition (the first being in 2007). CBRE Ltd has carried out Valuation, Agency and Professional services on behalf of Capital & Counties for in excess of 20 years. CBRE provide asset management service and agency advice to Shaftesbury. Copies of our conflict of interest checks have been retained within the working papers. We confirm that: () we are not aware of any reason why we would not satisfy the requirements of Rule 29.3(a)() and () of the Code; and () during the term of the engagement, we shall not do anything that could reasonably be expected to cause us not to satisfy the requirements of Rule 29.3(a)() and () of the Code.
Disclosure	The principal signatory of this report has continuously been the signatory of valuations for the Company and for financial reporting purposes since 2019. CBRE Ltd has continuously been carrying out valuation instructions for the Company since 2007.
Responsibility	For the purposes of the Code, we are responsible for this Valuation Report and accept responsibility for the information contained in this Valuation Report and confirm that to the best of our knowledge (having taken a reasonable care to ensure that such is the case), the information contained in this Valuation Report is in accordance with the facts and contains no omissions likely to affect its import. Save for any responsibility arising under the Takeover Code to any person as and to the extent there provided, to the fullest extent permitted by law we do not assume any responsibility and will not accept any liability to any other person for any loss suffered by

any such other person as a result of, arising out of, or in accordance with this Valuation Report or our statement above.”

Reliance

This report is for the use only of the parties to whom it is addressed for the specific purpose set out herein and no responsibility is accepted to any third party for the whole or any part of its contents save as set out in “Responsibility” above.

No reliance may be placed upon the contents of this Valuation Report by any party for any purpose other than in connection with the Purpose of Valuation.

Publication

Neither the whole nor any part of our report nor any references thereto may be included in any published document, circular or statement nor published in any way without our prior written approval of the form and context in which it will appear.

Such publication of, or reference to this report will not be permitted unless it contains a sufficient contemporaneous reference to any departure from the Red Book or the incorporation of any special assumptions referred to herein.

Source of Information and Scope of Works

Sources of Information	We have carried out our work based upon information supplied to us by the Company, as set out within this report, which we have assumed to be correct and comprehensive. We have included a schedule in Appendix C of the various due diligence items provided to us by the Company and the respondents, for the purposes of our initial valuation as at [date] and thereafter on additional properties entering the portfolio.
The Properties	Our report contains a brief summary of the Property details on which our Valuation has been based.
Inspection	We have previously inspected all the properties within the scope of our instructions from the Company to carry out valuations for financial reporting purposes, under which we carry out external inspections of the properties every year and all properties are subject to internal re-inspection over a three year period. In accordance with your instructions, we have not re-inspected the Properties for the purposes of this valuation, except where properties had not been inspected within twelve months of the valuation date. The Company has confirmed that they are not aware of any material changes to the physical attributes of these properties, since the last inspection. We have assumed this advice to be correct. Where properties have not been re-inspected, the valuer will not carry out the usual range of enquiries performed during a full inspection of these properties and will make the appropriate assumptions based on the information provided or available that, without a full inspection, cannot be verified. The instructing parties acknowledge and accept the heightened and inherent uncertainty and risks relying upon a valuation prepared on a desktop basis.
Areas	We have not measured the Properties but have relied upon the floor areas provided to us by the Company or the professional advisors, which we have assumed to be correct and comprehensive, and which the Company has advised us have been calculated using the: Gross Internal Area (GIA), Net Internal Area (NIA) or International Property Measurement Standard (IPMS) 3 Office, measurement methodology as set out in the latest edition of the RICS Property Measurement Standards.
Environmental Considerations	We have not been instructed to make any investigations in relation to the presence or potential presence of contamination and/or buildings or the potential presence of other environmental risk factors and to assume that if investigations were made to an appropriate extent then nothing would be discovered sufficient to affect value. We have not carried out investigation into past uses, either of the property or of any adjacent lands, to establish whether there is any potential for contamination from such uses or sites, or other environmental risk factors and have therefore assumed that none exists.
Services and Amenities	We understand that the Properties are located in an area served by mains gas, electricity, water and drainage. None of the services have been tested by us. Enquiries regarding the availability of utilities/services to any proposed developments are outside the scope of our report.
Repair and Condition	We have not carried out building surveys, tested services, made independent investigations, inspected woodwork, exposed parts of the structure which were covered, unexposed or inaccessible, nor arranged for any investigations to be carried out to determine whether or not any deleterious or hazardous materials or techniques have been used, or are present, in any part of the Properties. We are unable, therefore, to give any assurance that the Properties are free from defect.
Town Planning	We have not undertaken planning enquiries.

Titles, Tenures and Lettings

Details of title/tenure under which the Properties are held and of lettings to which this subject are as supplied to us. We have not generally examined nor had access to all the deeds, leases or other documents relating thereto. Where information from deeds, leases or other documents is recorded in this report, it represents our understanding of the relevant documents. We should emphasise, however, that the interpretation of the documents of title (including relevant deeds, leases and planning consents) is the responsibility of your legal adviser.

We have not conducted credit enquiries on the financial status of any tenants. We have, however, reflected our general understanding of purchasers' key perceptions of the financial status of tenants

Valuation Assumptions

Introduction	An Assumption is defined in the Red Book Glossary and VPS 4 to be a "supposition taken to be true" (an "Assumption"). Assumptions are facts, conditions or situations affecting the subject of, or approach to, a valuation that it has been agreed need not be verified by the valuer as part of the valuation process. Assumptions are made when it is reasonable for the valuer to accept that something is true without the need for specific investigation. The Company has confirmed and we confirm that our Assumptions are correct as far as the Company and we, respectively, are aware. In the event that any of these Assumptions prove to be incorrect then our valuations should be reviewed. The principal Assumptions which we have made are stated within this Valuation Report. For the avoidance of doubt, the Assumptions made do not affect compliance with the approach to Market Value under the Red Book.
Capital Values	Each valuation has been prepared on the basis of "Market Value", which is defined in the Red Book as: "The estimated amount for which an asset or liability should exchange on the Valuation Date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion." The Valuation represents the figure that would appear in a hypothetical contract of sale at the Valuation Date. No adjustment has been made to this figure for any expenses of acquisition or realisation nor for taxation which might arise in the event of a disposal. No account has been taken of any intercompany leases or arrangements, nor of any mortgages, debentures or other charge. No account has been taken of the availability or otherwise of capital based Government or European Community grants.
Taxation, Costs and Realisation Costs	As stated above, no allowances have been made for any expenses of realisation nor for taxation which might arise in the event of a disposal. Our valuations reflect purchasers' statutory and other normal acquisition costs.
VAT	We have not been advised whether the properties are elected for VAT. Rents and capital values stated in this report are exclusive of VAT.
Passing Rent	Passing rents quoted in this report are the rents which are currently payable under the terms of the leases. Passing rents exclude service charges and VAT and are prior to deduction of any non-recoverable costs.
Net Annual Rent	Net annual rent is defined for the purposes of this transaction as "the current income or income estimated by the valuer: () ignoring any special receipts or deduction arising from the property; () excluding Value Added Tax and before taxation (including tax on profits and any allowances for interest on capital or loans); and () after making deductions for super rents (but not for amortisation), and any disbursements including, if appropriate, expenses of managing the property and allowances to maintain it in a condition to command its rent".
Estimated Net Annual Rental Value	The estimated net annual rental value is based on the current rental value of each of the Properties. The rental value reflects the terms of the leases where the Properties, or parts thereof, are let at the date of valuation. Where the Properties, or parts thereof, are vacant at the date of valuation, the rental value reflects the rent we consider would be obtainable on an open market letting as at the date of valuation.

Rental Values	Unless stated otherwise rental values indicated in our report are those which have been adopted by us as appropriate in assessing the capital value and are not necessarily appropriate for other purposes, nor do they necessarily accord with the definition of Market Rent in the Red Book, which is as follows: "The estimated amount for which an interest in real property should be leased on the Valuation Date between a willing lessor and a willing lessee on appropriate lease terms in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion."
Fixtures, Fittings and Equipment	Where appropriate we have regarded the shop fronts of retail and showroom accommodation as forming an integral part of the building. Landlord's fixtures such as lifts, escalators, central heating and other normal service installations have been treated as an integral part of the building and are included within our Valuations. Process plant and machinery, tenants' fixtures and specialist trade fittings have been excluded from our Valuations. All measurements, areas and ages quoted in our report are approximate.
Environmental Matters	In the absence of any information to the contrary, we have assumed that: - the Properties are not contaminated and are not adversely affected by any existing or proposed environmental law; - any processes which are carried out on the Properties which are regulated by environmental legislation are properly licensed by the appropriate authorities; - in England and Wales, the Properties possess current Energy Performance Certificates (EPCs) as required under the Government's Energy Performance of Buildings Directive and that they have an energy efficient standard of 'E', or better. We would draw your attention to the fact that under the Energy Efficiency (Private Rented Property) (England and Wales) Regulations 2015 it became unlawful for landlords to rent out a business premises from 1st April 2018 unless the site has reached a minimum EPC rating of an 'E', or secured a relevant exemption. In Scotland, we have assumed that the Properties possess current EPCs as required under the Scottish Government's Energy Performance of Buildings (Scotland) Regulations and that they meet energy standards equivalent to those introduced by the 2002 building regulations. We would draw your attention to the fact the Assessment of Energy Performance of Non Domestic Buildings (Scotland) Regulations 2016 came into force on 1st September 2016. From this date, building owners are required to commission an EPC and Act on Plan for sale or new rental of non domestic buildings bigger than 1,000 sq m that do not meet 2002 building regulations energy standards. Act on Plans contain building improvement measures that must be implemented within 3.5 years, subject to certain exemptions; - In January 2021 the Government closed the consultation period that focused on its latest proposals in England and Wales for 'improving the energy performance of privately rented homes'. The key tenets of the proposals are to; reduce emissions; tackle fuel poverty; improve asset quality; reduce energy bills; enhance energy security; and support associated employment. The proposals are wide ranging and they introduce new demands on residential landlords through Energy Performance Certificates ('EPCs'). Existing PRS Regulations set a minimum standard of EPC Band E for residential units to be lettable. The Government proposals see this threshold being raised to EPC Band C for all new tenancies created from 01 April 2025 and for all existing tenancies by 01 April 2028. The principle for relevant building works is to be 'fabric first' meaning maximisation of components and materials that make up the building fabric to enhance, for example, insulation, ventilation and airtightness. The proposals also cite; compliance measures and penalties for landlords, letting agents and local authorities; and affordability support for carry out necessary works. The

	improvements (as with the existing EPC Band E requirement) that private rented units may effectively be rendered unlettable if they fail to meet or exceed the minimum EPC requirement. It is expected that the Government will respond to the consultation process in Q2/Q3 2022 with any new regulations taking effect in Q3/Q4 2022. At present it is not clear how the market would respond to these proposals were they to be implemented as currently drafted; neither do we have any visibility of changes that may be made to the proposals following the consultation process. Our Valuation reflects market conditions and regulations effective at the Valuation date; we make no additional allowances for any future works that may be required in order to ensure that the subject assets would remain lettable under revised regulations; e) the Properties are either not subject to flooding risk or, if they are, that sufficient flood defences are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value; and f) invasive species such as Japanese Knotweed are not present on the Properties. High voltage electrical supply equipment may exist within, or in close proximity of, the Properties. The National Radiological Protection Board (NRPB) has advised that there may be a risk, in specified circumstances, to the health of certain categories of people. Public perception may, therefore, affect marketability and future value of the Properties. Our Valuation reflects our current understanding of the market and we have not made a discount to reflect the presence of this equipment.
Repair and Condition	In the absence of any information to the contrary, we have assumed that: a) there are no abnormal ground conditions, nor archaeological remains, present which might adversely affect the current or future occupation, development or value of the Properties; b) the Properties are free from rot, infestation, structural or latent defect; c) no currently known deleterious or hazardous materials or suspect techniques, including but not limited to Composite Paneling, ACM Ceiling, High Alumina Cement (HAC), Asbestos, have been used in the construction of, or subsequent alterations or additions to, the Properties; and d) the services, and any associated controls or software, are in working order and free from defect. We have otherwise had regard to the age and apparent general condition of the Properties. Comments made in the property details do not purport to express an opinion about, or advise upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts.
Title, Tenure, Lettings, Planning, Taxation and Statutory & Local Authority Requirements	Unless stated otherwise within this report, and in the absence of any information to the contrary, we have assumed that: a) the Properties possess a good and marketable title free from any onerous or hampering restrictions or conditions; b) the building has been erected either prior to planning control, or in accordance with planning permissions, and has the benefit of permanent planning consents or existing use rights for the current use; c) the Properties are not adversely affected by town planning or road proposals; d) the building complies with all statutory and local authority requirements including building, fire and health and safety regulations, and that a fire risk assessment and emergency plan are in place; e) only minor or inconsequential costs will be incurred if any modifications or alterations are necessary in order for occupiers of the Properties to comply with the provisions of the Disability Discrimination Act 1995 (in Northern Ireland) or the Equality Act 2010 (in the rest of the UK);

- f) all rent reviews are upward only and are to be assessed by reference to full current market rents;
- g) there are no tenant's improvements that will materially affect our opinion of the rent that would be obtained on review or renewal;
- h) tenants will meet the obligations under the leases, and are responsible for insurance, payment of business rates, and all repairs, whether directly or by means of a service charge;
- i) there are no user restrictions or other restrictive covenants in leases which would adversely affect value;
- j) where more than 50% of the floorspace of the Properties is residential use, the Landlord and Tenant Act 1987 (the "Act") gives certain rights to defined residential tenants to acquire the freehold/head leasehold interest in the Properties. Where this is applicable, we have assumed that necessary notices have been given to the residential tenants under the provisions of the Act, and that such tenants have elected not to acquire the freehold/head leasehold interest. Disposals on the open market are therefore unrestricted;
- k) where appropriate, permissions to assign the interest being valued herein would not be withheld by the landlord where required;
- l) vacant possession can be given of all accommodation which is unlet or let on a service occupancy; and
- m) Land Transfer Tax (or the local equivalent) will apply at the rate currently applicable. In the UK, Stamp Duty Land Tax (SDLT) in England and Northern Ireland, Land and Buildings Transaction Tax (LBTT) in Scotland or Land Transaction Tax (LTT) in Wales, will apply at the rate currently applicable.
